

Cyberspace Joint Operations Planner, Senior II

Description

Job Description Summary

Key Role

Participate and provide input throughout all planning functions, from translating strategic guidance through concept and plan development, to plan assessments and associated functions. Analyze the development, revision, and coordination of campaign, support, and contingency plans, including commander's estimates, base plans, concept plans, and operations plans, and ensure Cyberspace operations are integrated with all appropriate and associated annexes and appendices. Coordinate and integrate DoD requirements, targets, and priorities into planning. Participate in all Joint operation contingency and crisis planning activities as a member of Joint Planning Groups (JPG) and Operational Planning Teams (OPTs), as needed to ensure proper representation of guidance and doctrine into planning.

Qualifications

Basic Qualifications:

- 5+ years of experience as a Joint operations planner
- Knowledge of the JOP and APEX planning formats and guidance
- TS/SCI clearance with a polygraph
- Bachelor's degree

Completion of specialized education in Military Joint Operation Planning through the JPME II from a CJCS Joint Education Program listed in CJCSI 1800.01E or JIOPC

Clearance:

Applicants selected will be subject to a security investigation and may need to meet eligibility requirements for access to classified information; TS/SCI clearance with polygraph is required.
