

Cyberspace Policy Analyst and Subject Matter Expert

Description

Key Role:

Manage campaign assessments. Analyze campaign plans and other command strategies, policies, and doctrine to ensure commander direction and command strategy is adequately interpreted into actions in alignment with strategic and intermediate military objectives. Determine whether the campaign plan properly captures and describes an approach to implementing all guidance to the command from higher echelons, national and military strategies, and policy documents

Qualifications

Basic Qualifications:

- 10+ years of experience as a USG, DOD, or Combatant Command policy analyst
- Experience with conducting research and analysis, and contributing to the coordination of strategic assessments for military operations
- TS/SCI clearance
- Bachelor's degree

Additional Qualifications:

- Experience with the Annual Joint Assessment (AJA) or Chairman's Net Assessment
- Experience with analyzing campaign plans to ensure the commander's direction and command strategy are interpreted into actions aligned with strategic and intermediate military objectives
- Knowledge of the Joint Strategic Planning System
- Ability to develop reports and briefings on strategic assessment activities
- TS/SCI clearance with a polygraph
- Master's degree

Clearance:

Applicants selected will be subject to a security investigation and may need to meet eligibility requirements for access to classified information; TS/SCI clearance is required.
