**Job number:**  
**JO2024-10033**

Join Exigent Services as Knowledge Management Specialist II and be part of a dynamic team that supports the U.S. Cyber Command (USCYBERCOM) Directorates in Fort Meade, MD with subject matter expertise in the areas of joint cyberspace operations planning, policy, strategy, and doctrine development, wargames and exercises, operations research, international and integration support, and cyber intelligence operations.

**Hiring organization**  
Exigent

**Job Location**  
USA

**Date posted**  
March 4, 2024

### The Knowledge Management Specialist II will:

- Serve as a USCYBERCOM knowledge management specialist enabling the collaboration of Cyber operational data and providing USCYBERCOM leadership with relevant information to make informed decisions while assisting with developing and promoting knowledge management best practices within the Command and serve as a resource for internal business process design and development.
- Promote and assist with the use of internal knowledge management tools while developing and implementing repeatable knowledge management processes for continual process improvement.
- Research and document sources of knowledge management training and develop and present knowledge management briefings to the Command staff.
- Integrate information from departments and function throughout the organization to facilitate easy access, sharing, and dissemination of information with internal business partners and external clients.
- Train and educate front-end users of the knowledge management tools.
- Develop reports to support operations, write knowledge content, and prepare presentations for senior management to support recommended changes, new initiatives, or enhancements, as required.
- Monitor solution benefits and key measures of success to ensure that ongoing benefits are realized, facilitate the development of controls with business partners through streamlining processes and system automation, support all positions with appropriate analysis and backup materials, and collaborate across many business units to communicate complex concepts.

### The Knowledge Management Specialist will have:

- 5+ years of experience as a knowledge management specialist
- Ability to pay strict attention to detail
- Active TS/SCI clearance with a polygraph, upon application
- Bachelor's degree in Information Management

**Additional Qualifications:**

- Experience with supporting joint operational planning preferred
- Experience with red teaming preferred
- Possession of excellent organizational skills
- Possession of excellent verbal and written communication skills

**Compensation**

Exigent Services offers a comprehensive compensation package including: 401K, health, vision, dental, and life/disability insurance.
